RE: Liquidation notification of ITC final negative determination of critical circumstances for certain carbon and alloy steel cut-to-length plate from Belgium for the period before 11/14/2016 (A-423-812)

1. On 05/23/2017, the U.S. International Trade Commission (ITC) determined that critical circumstances do not exist with respect to certain carbon and alloy steel cut-to-length plate from Belgium. As a result of the ITC's negative determination of critical circumstances, CBP should terminate the suspension of liquidation for all shipments of certain carbon and alloy steel cut-to-length plate from Belgium that were entered, or withdrawn from warehouse, for consumption before 11/14/2016 (the date of publication of Commerce's affirmative preliminary determination notice in the Federal Register). All such entries should be liquidated without regard to antidumping duties (i.e., refund all cash deposits).
2. Notice of lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 11/14/2016, occurred with the publication of the ITC's final determination of its investigation (82 FR 23592) on 05/23/2017. For all other shipments of certain carbon and alloy steel cut-to-length plate from Belgium, continue to collect cash deposits of estimated antidumping duties for the merchandise at the current rates unless instructed otherwise.
3. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by OII:AM)
5. There are no restrictions on the release of this information
